

On the first day of school I walked into the classroom curious if my teacher was strict or really nice and maybe was a little strict. When I walked in, she was very nice. We'd barely talk. Only when we needed to.

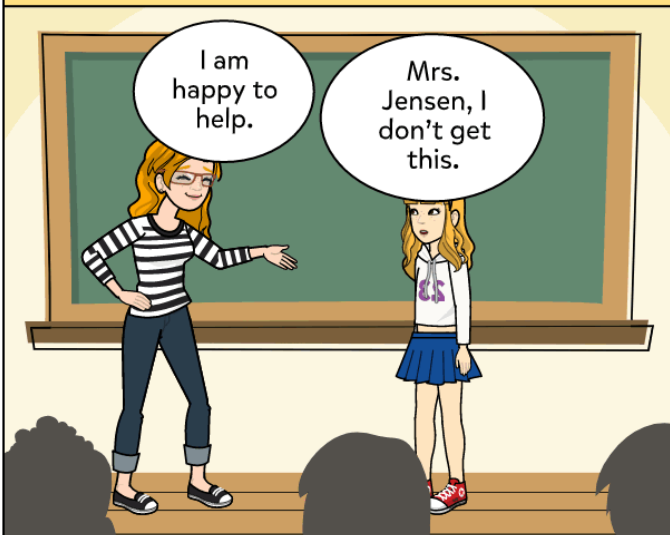

Mrs. Jensen was so nice. She was so nice, that if I got something very wrong, She would still be proud of me. She was very fun to talk to and she was a very good listener.

Mrs. Jensen and I would have short talks at recess. The more I talked with her the more I got comfortable. I like Mrs. Jensen because when we have a problem at school she understands us. I get so into talking its like I get hypnotized.

I like Mrs. Jensen because when we need help with something she makes the time to help and help us understand it. I was shocked to see really take her time to teach me . Even though she had lots of work.

I like how she says things will happen in the future if you don't do this. That shows she cares about us.

She has a good sense of humor and is very funny. She is very polite and loves all of her students no matter what. She is a great person to stick around with.
